FALLSTAND8

Visual merchandise for Fallshaw distributors

Standard wheels and castors range

Product series pop-up wobbler signs

Must be fitted under shelf to display only the rectangular label.

Pneumatic Wheels

Standard bearing sizes:
• 20 mm, 1/4", 3/4" and 1".

Used on rough surfaces:
• Hand trucks.
• Wheelbarrows.
• Outdoor trolleys.

See demo video for how to fit bearings and reducing bushings.

Pneumatic Wheels
Part number: STKFSRWBLRP

Wheels

Soft tyres
For indoor and outdoor use

- **Blue rubber:** Very bouncy for rough terrain; best all-rounder.
- **Grey rubber:** Energy absorbing to reduce vibration and noise.

Hard tyres

- **Polyurethane:** Resists swarf (metal shavings) and for high compression loads without flat-spotting.
- **Nylon:** Corrosion-resistant, food-grade sanitation and low cost.

See demo video for how to fit bearings and reducing bushings.

Wheels
Part number: STKFSRWBLRWH

Spare Parts

For Pneumatic Wheels

Standard bearing sizes for:
• 4" pneumatics:
• 20 mm, 1/4" and 3/4".
• 6" and 8" pneumatics:
• 1" (reduce to 20 mm, 1/4" and 3/4" using reducing bushings).

See demo video for how to fit bearings and reducing bushings.

Spare parts
Part number: STKFSRWBLRS

Fittings

For Bolt Hole Castors

Used to install castors into square or round tubular legs:

- Threaded tube ends.
- Expanding adaptors.

Reducing bushes to reduce the pinhole size:

- From 12 mm (1/2") to 8 mm.
- From 12 mm (1/2") to 10 mm.

See demo video for how to install.

Fittings
Part number: STKFSRWBLRF

L Series Castors

30 kg load rating

Light duty uses:

- Mop buckets.
- Laundry baskets.
- Plant stands.

See demo video for how to install.

L Series Castors
Part number: STKFSRWBLRL

Twin Series Castors

40 kg load rating

Light duty uses:

- Clothes racks.
- Bedside tables.
- Mobile drawer units.

See demo video for how to install.

Twin Series Castors
Part number: STKFSRWBLRT

N Series Castors

90 kg load rating

Light duty uses:

- Low-profile cabinets.
- Freezers.
- Refrigerators.

See demo video for how to install.

N Series Castors
Part number: STKFSRWBLRN

K Series Castors

50-100 kg load rating

Medium duty uses:

- Work benches.
- Shop displays.
- Mobile drug cabinets.

See demo video for how to install.

K Series Castors
Part number: STKFSRWBLRK

M Series Castors

85-200 kg load rating

Medium duty uses:

- Work benches.
- Room service carts.
- Hospital beds.

See demo video for how to install.

M Series Castors
Part number: STKFSRWBLRM

J Series Castors

150-300 kg load rating

General duty uses:

- Stock picking trolleys.
- Work platforms.
- Road cases.

See demo video for how to install.

J Series Castors
Part number: STKFSRWBLRJ

O Series Castors

230-500 kg load rating

Heavy duty uses:

- Linen carts.
- Roll cages.
- Bell carts.

See demo video for how to install.

O Series castors
Part number: STKFSRWBLRO

H Series Castors

400-600 kg load rating

Heavy duty uses:

- Linen carts.
- Hospitality carts.
- Bell carts.

See demo video for how to install.

H Series castors
Part number: STKFSRWBLRH

Very Heavy Duty Castors

500-3500 kg load rating

Very heavy duty uses:

- Industrial trolleys to cart steel or timber.
- Container movement.
- Very heavy machinery.

See demo video for how to install.

Very Heavy Duty Castors
Part number: STKFSRWBLRVHD

Visual merchandise for Fallshaw distributors

Standard pneumatics range on a slat wall

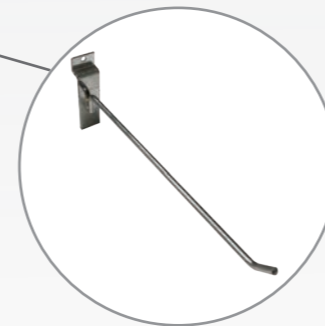

Shelf: pneumatic tubes

Part number:
FALLSLATSHELF

Pop-up shelf wobbler labels: Foam-filled tyres

Part number:
PNEUPOPUPSTK

Standard hook: For small wheels with any size bearing

Part number:
FALLPNEUHOOK

Heavy duty hook: For large wheels with 1" bearing only

Part number:
FALLPNEUHOOKHD

Visual merchandise for Fallshaw distributors

'Aussie-made' sticker instructions

Aussie made stickers on castors
Part number: AUSSIESTICKER

'Aussie made' stickers for castors and forks

The 'Aussie made' stickers (AUSSIESTICKER) are placed onto the forks so they appear upside-down on the display stand, with the brake pedal pointing to the right (even if there isn't actually a brake pedal). Stickers are only applied to complete castors or forks, but not to wheels.

Australian-made range

Stickers can be applied to castors in the Fallshaw core range including K, M, J, O and H series, and well as the decorative, scaffold, specialised and medical castors—all of which have more than 50% content manufactured here (and are therefore truthfully 'made in Australia' as per ACC trade practices law). This covers our entire ranges between the 50kg to 600kg load ratings.

The L series or the Very Heavy Duty ranges must not have the 'Aussie made' sticker, as these are imported. This includes the ranges with load ratings less than 50kg or more than 600kg (or other incidental items that are imported).

Ordering stickers

Not all Fallshaw distributors want the 'Aussie made' stickers. If you do not want the stickers on a particular order, then our sales people will enter an order line that omits the stickers.

Once we flag a distributor as 'yes' then every subsequent printing slip will have an automatic item code 'AUSSIESTICKER'.
